Hello,

We received a letter from the San Luis Delta-Mendota Water Authority yesterday cancelling the transfer program for 2016. They still want water but do not see a way to get it through the delta. I will let you know if we get any indication that the program might start up again in 2016. They also indicated they expect the program to start again in 2017. Let me know if you have any questions.

Thanks,

Brett Gray
