March 28, 2023

John Roberts
Natomas Basin Conservancy
2150 River Plaza, Suite 460
Sacramento, California 95833-4135

Subject: Notification of Non-Critical Year – Natomas Basin Conservancy – Sacramento River Settlement Contract Number 14-06-200-1364A-R-1 (Settlement Contract) – Central Valley Project, California

Dear Mr. Roberts:

The Bureau of Reclamation is providing you an update to our February 15, 2023, letter notifying you that Water Year 2023 was forecasted to not be a Critical Year based on the forecasted inflow into Shasta Lake. In that letter, Reclamation noted that the first half of February had been dry and advised that you take necessary preparations to account for a potential change to that designation.

This letter is intended to inform you that based on recent storms and updated forecasted inflow into Shasta Lake, Reclamation is confident that Water Year 2023 will continue to not be a Critical Year as that term is defined in the Settlement Contract. In addition, Reclamation does not anticipate any further changes to your Contract Total for Water Year 2023.

If you have questions, please contact Mr. Jacob Berens at 530-892-6203 or e-mail jberens@usbr.gov or Mr. Richard Robertson at 530-892-6265 or e-mail rrobertson@usbr.gov.

Sincerely,

Acting for
Donald Bader
