APPROVAL OF MINUTES AND CONSENT ITEMS

Shirey requested a motion to approve the June 3, 2020 Board of Directors meeting minutes and the consent agenda items.

	Approval of the minutes	The Board Chair will request approval of the minutes of the Board of Directors meeting of February 5, 2020.
---	-------------------------	---

	<p>Request for Proposals – Audit Services</p>	<p>The December 31, 2019 financial statement audit reported at the June Board meeting concluded the current contract between the Conservancy and Gilbert CPAs.</p> <p>The Conservancy has had other accounting firms over the years conduct financial statement audits. The Conservancy has prepared a Request for Proposals (RFP) designed to solicit responses from qualified accounting firms to conduct audits for fiscal years 2020, 2021, and 2022. Responses to the call for RFPs will be presented to the Board at its October 7, 2020 Board meeting for selection of a responding, qualified accounting firm beginning January 1, 2021. The contract is proposed for three years with two one-year options to renew.</p> <p>Conservancy staff recommends the Board authorize the release of the RFP for audit services with the intent to obtain responses from multiple qualified respondents.</p>
	<p>Request for Proposals – Land Management and Maintenance</p>	<p>The three-year term of the Conservancy's land management and maintenance contract is expiring at year's end (see Board resolution #17.10.09). Management requests the Board authorize the release of a RFP in order to obtain submissions from qualified firms for a three-year engagement as a Conservancy land management and maintenance contractor beginning January 1, 2021. The goal is to have multiple submissions and from that a recommended land management and maintenance contractor for the Board to consider at its October 7, 2020 Board meeting.</p> <p>(Note: A significant part of the Fisherman's Lake Reserve Area is managed under contract with HRS, Inc., and is not a part of this agenda item. Much of that area under management is SAFCA property.)</p>
	<p>Employee Handbook update</p>	<p>The Conservancy's Employee Handbook was last updated on August 7, 2019. This policy is presented for Board review and approval with minor changes and adjustments as suggested by legal counsel with regards to COVID-19.</p>
	<p>Audit Committee Charter update</p>	<p>The Conservancy's Audit Committee Charter is presented for Board review and approval with minor updates. The policy was last updated October 2, 2019.</p>

	SAFCA/HRS land management agreement	HRS will have completed its three-year agreement for the Sacramento Area Flood Control Agency (SAFCA) Land Management Agreement on December 31, 2020. The contract is three years with an option to extend for two additional years. The Conservancy would like to exercise the renewal option under the terms of the contract. Staff recommends approval of the two-year extension with HRS.
	SAFCA enter and construct agreement	SAFCA, the U.S. Army Corp of Engineers and the Central Valley Flood Protection Board are constructing improvements to the Sacramento River East Levee and relocating the Natomas Central Mutual Water Company Riverside Canal. This construction requires an Enter and Construct Agreement as the improvements are on the Conservancy's Alleghany and Cummings properties. After work activities on Alleghany and Cummings are completed SAFCA has assured the Conservancy that it will be compensated in the event of crop loss or damage to soil related to construction activities.

The Board pulled from Consent Agenda the following items: June 3, 2020 minutes, Request for Proposals – Audit Services, Request for Proposals – Land Management and Maintenance, and Audit Committee Charter.

The following Consent Agenda items were moved for approval: Employee Handbook update, SAFCA/HRS land management agreement and SAFCA enter and construct agreement.

(Res.20.08.02) On a motion by Johnston and a second by Chilmakuri, the Board unanimously approved the following Consent Agenda items: Employee Handbook update, SAFCA/HRS land management agreement and SAFCA enter and construct agreement. Roll call:

Request for Proposals – Audit Services / Audit Committee Charter. These two items were moved together. The Board wanted to add tax services to the audit services RFP and inquired further to the changes in the Audit Committee Charter. Staff noted the charter was presented with minor change to the make-up of the committee and had been reviewed by Compensation and Governance Committee.

(Res.20.08.04) On a motion by Shirey and a second by Chilmakuri, the Board unanimously approved the Request for Proposals – Audit Services (with the inclusion of tax services) and the updated Audit Committee Charter. Roll call:

DISCUSSION

City of Sacramento report. Cheryle Hodge with the City of Sacramento provided an update on City activities related to development in the Natomas Basin and other topics.

Financial statement review. Burns presented unaudited June 30, 2020 financial statements. Additional information was provided.

NBHCP Finance Model sensitivity analysis. As a result of conversations some months ago with senior City of Sacramento finance officials regarding the long-term adequacy of the NBHCP fee, Conservancy management engaged in a series of conversations with Economic and Planning Systems (EPS). EPS is tasked each year with recalculating the NBHCP Finance Model, and its work in the recalculation effort has positioned the firm to be especially knowledgeable about NBHCP implementation finance. Accordingly, excellent support was available to the Conservancy as it contemplated some of the larger questions City management posed that test the NBHCP Finance Model.

Conservancy management presented to the Board the results of the sensitivity analysis that was completed in response to City management's questions. In brief, if the Conservancy accepts existing, accepted assumptions, the NBHCP fee that is currently in place is adequate over the long term. However, if less optimistic assumptions are considered, there is an underfunding. In all scenarios—each one less optimistic than the current assumption that drives the NBHCP Finance Model calculation—the delta is not extraordinary but should be addressed.

As we approach the season where the Conservancy conducts the 2021 NBHCP Finance Model recalculation, which begins in a couple of months, a harder look at that nexus between the current assumptions used and those that are less optimistic will be considered. In the meantime, Board members are invited to review, comment upon and make recommendations on this important aspect of the Conservancy's mission as we move into budget and NBHCP Finance Model recalculation season.

Executive Director's Report. Various matters for Board members' general information were presented by the Conservancy's Executive Director.

ADJOURNMENT

Official adjournment of the meeting.

(Res.20.08.07) On a motion by Johnston and a second by Cohn the Board unanimously voted to adjourn the meeting at 7:45 pm.
