

# The Natomas Basin Conservancy

A California Non-profit Public Benefit Corporation

General Fact Sheet 2024

## Background

The Natomas Basin Conservancy was incorporated on October 21, 1994 as a California Non-profit Public Benefit Corporation. It officially employed staff on March 15, 1999 and opened its first office at 1750 Creekside Oaks Drive, Suite 290, Sacramento, soon after. The Conservancy currently maintains offices at 2150 River Plaza Drive, Suite 460, Sacramento, California.

The purpose of the Conservancy is spelled out in the 2003 Natomas Basin Habitat Conservation Plan (NBHCP) as follows:

*The mission of The Natomas Basin Conservancy is to promote biological conservation along with economic development and the continuation of agriculture in the Natomas Basin. The Habitat Conservation Plan establishes a multi-species conservation program to mitigate the expected loss of habitat values and take of protected species that would result from urban development, operation of irrigation and drainage systems, and rice farming. The goal of the Habitat Conservation Plan is to preserve, restore, and enhance habitat values in the Natomas Basin while allowing urban development to proceed according to local land use plans.*

In essence, the Conservancy is the “plan operator” of the Natomas Basin Habitat Conservation Plan (NBHCP) and the Metro Air Park Habitat Conservation Plan (MAPHCP). Parties to the NBHCP include the California Department of Fish and Wildlife, the City of Sacramento, County of Sutter and the U.S. Fish and Wildlife Service in addition to the Conservancy. The City of Sacramento and County of Sutter are not parties to the MAPHCP.

The organization is governed by a 10-member Board of Directors. All Board members are appointed to three-year terms of office by the City of Sacramento and the County of Sutter. The City and County each appoint five members to the Board of Directors. Board members elect from among themselves a Board Chair each year who serves a one-year term of office. The Board in turn hires the Conservancy’s Executive Director.
